

The Solution for your Crawl Space

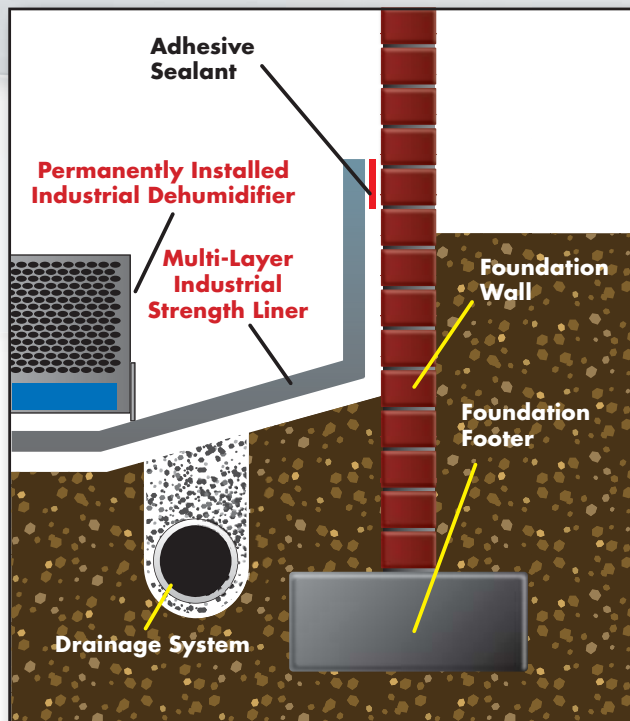

Dehu Crawl System

Our Dehu Crawl System insulates your crawl space. This reduces the flow of humid air under your house using the best insulation available.

- **25 Year Warranty**
- **Multi-Layer Polyolefin Liner** specifically engineered to be more resistant to vapor intrusion, completely sealing off crawl vents
- **Interior French Drain System**
 - Industrial grade 4' slotted/corrugated pipe
 - Silt screen Sock around pipe
 - Placed in a bed of aggregate
 - Drainage system installation does not disturb termite treatment area
- **Industrial Strength Dehumidifier**
- **Designed to remove moisture, mold and mildew damage in crawl space**
- **Existing floor insulation removed**

Preparatory Options

- **Intervention** - 24 hours in advance, we perform environmentally friendly treatment in the crawl space to kill any airborne spores
- **Stabilize** - We also place industrial strength dehumidifiers in the crawl space to stabilize the humidity level
- **Grading** - Some crawl spaces require grading for proper drainage
