

The Solution for your Crawl Space

SmartCrawl™ System

Our SmartCrawl™ System is designed to meet or surpass all building requirements and guidelines to assure your home stays safe and dry.

- **1 Year Warranty**
- **Multi-Layer Polyolefin Liner specifically engineered to be more resistant to vapor intrusion, completely sealing off crawl vents**
- **Interior French Drain System**
 - Industrial grade 4' slotted/corrugated pipe
 - Silt screen Sock around pipe
 - Placed in a bed of aggregate
 - Drainage system installation does not disturb termite treatment area
- **Humidity controlled vents installed to control flow of air**
- **Designed to prevent moisture, mold and mildew damage in crawl space**

Preparatory Options

- **Intervention** - 24 hours in advance, we perform environmentally friendly treatment in the crawl space to kill any airborne spores
- **Stabilize** - We also place industrial strength dehumidifiers in the crawl space to stabilize the humidity level
- **Grading** - Some crawl spaces require grading for proper drainage
